PROFESSIONAL SUMMARY

Software Developer with a background in Information Technology and hands-on experience building web applications and AI/ML projects. I work with JavaScript, React, Python, and modern web technologies, with a focus on building practical software and solving real-world problems.

TECHNICAL SKILLS

Languages: JavaScript, Python, HTML5, CSS3, SQL
Frontend: React.js, TypeScript, Tailwind CSS, DOM,
Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL
AI / Data: Machine Learning, NLP, TF-IDF, Logistic Regression,
Concepts: OOP, APIs, Debugging, Version Control

PROJECTS

VerifAI — Fake News Detection System | Python • Machine Learning

- Developed a fake-news detection prototype using text preprocessing, TF-IDF feature extraction, and Logistic Regression.
- Built a web interface for users to analyze pasted news text or links and receive a classification result.

Healthcare Patient–Doctor–Hospital Availability App | React / node.js

- Developing an application for managing healthcare availability and connecting patients, doctors, and hospitals.

Dental Accounting Application | React / Node.js

- Developing a practical accounting application for dental/clinic-related financial management.

Student Management System | HTML • CSS • JavaScript

- Building a student-management project to practice JavaScript fundamentals including loops, conditions, user input, and DOM interaction.

EXPERIENCE

Administrative & Data Systems Coordinator | Quaid-e-Azam College for Boys, Mardan, | Feb 2024 – Aug 2026

- Managed student and administrative data, records, and reports using digital tools.
- Provided technical support for computer systems, software, and office tasks.
- Maintained accurate digital records and supported day-to-day administrative operations.

Accounts Manager | New Tameer, Islamabad, Pakistan | 2021 – 2024

- Managed quotations, invoices, budgets, payments, and financial records.
- Prepared expense reports and maintained accurate accounting documentation.
- Coordinated with clients and suppliers regarding billing, payments, and financial matters.

EDUCATION

Bachelor of Science in Information Technology | Virtual University of Pakistan

7th Semester Completed | Expected Graduation: 2027 |
